ABOUT ME

With over six years of experience as a UI/Web Designer, I bring a high level of efficiency and boundless creativity to the table. My expertise lies in crafting innovative and responsive websites and applications that perfectly align with client specifications. I am skilled in leveraging cutting-edge technologies such as HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, and JQuery to develop engaging mock-ups that captivate users.

My proficiency extends to using design tools like Photoshop, Figma, Axure RP, and Adobe XD to produce dazzling website templates that stand out in the digital landscape. I am meticulous in my approach to quality assurance, swiftly evaluating and rectifying bugs in line with service-level agreements to ensure seamless user experiences.
